

Gorsemoor Primary School

The Ethos Statement

Our Vision, Values and Aims

At Gorsemoor we foster a safe, welcoming, caring, stimulating and secure environment which encourages development in all aspects of our children's growth as learners. The nurturing of all within our school is based on British values and attitudes of tolerance, care, concern and forgiveness. This enables the broadening of horizons and the development of our children's all-round potential.

We aim to:

- Deliver a broad, balanced and enriched curriculum, so that our children are excited by and immersed in their learning
- Provide a caring and happy environment where every child feels secure, safe and happy to be part of our school family
- Help children to develop personally, socially, morally and spiritually, respecting all others in a climate where bullying and racism are unacceptable
- Ensure equality of opportunity for all whilst celebrating the individuality of every child
- Develop a partnership between home, school and the wider community that is mutually supportive
- Maintain high standards of behaviour and respect for all others
- Foster the development of attitudes and skills that will give children increasing control over their own lives and help them to make informed choices
- Promote healthy lifestyle choices and teach our children how to keep themselves safe.

Motto

Safe and Happy as we Learn.
