

Year 6 (End of KS2) test results

The new way of reporting on pupils is in terms of expected standard. On our website we will publish average progress scores, average 'scaled scores' and the percentages of pupils who achieved a higher level of attainment. For clarity, this table shows only expected standard or higher as one figure. As a school we have requested that some papers be re-marked, so final figures may need adjustment. Our writing was subject to county moderation this year.

The Department for Education (DfE) data released in July 2017, on the 2017 national curriculum assessments at KS2, showed that nationally **61% of pupils reached the expected standard for the combined scaled score.**

The Combined Scaled Score counts each child at our school, who reached expected standard (or above) in three tests **reading, writing and mathematics**, then calculates that as a percentage of the whole Year 6 group.

End of Key Stage 2 Tests	2016 Gorsemoor	2017 Gorsemoor	2017 DfE National Provisional data
	At the expected standard or above	At the expected standard or above	At the expected standard or above
Reading	71%	64%	71%
Writing	72% Teacher Assessment	78% Teacher Assessment	76%
Grammar, punctuation and spelling	72%	77%	77%
Mathematics	61%	70%	75%
Combined scaled score	54%	59%	61%

We are particularly pleased with, how these school results show an improvement in Maths, Writing and Grammar, whilst pupils attaining greater depth have increased in Reading, Grammar and significantly in Maths (percentages not shown here, but will be available on the website). Well done, Year 6.

Year 2 (End of KS1) test results

We are absolutely delighted with the Year 2 results this year, so wish to share the pupils' success with the whole school. The table contrasts this year with 2016 Gorsemoor results and their comparable 2016 national figures. Brilliant percentages Year 2, well done.

Again, the new way of reporting on pupils is in terms of expected standard. This table shows only expected standard or above as one figure. The Department for Education (DfE) data for the 2017 national curriculum assessments at KS1 has not yet been released.

The Combined Scaled Score counts each child at our school, who reached expected standard (or above) in three tests **reading, writing and mathematics**, then calculates that as a percentage of the whole Year 2 group.

End of Key Stage 1 Attainment	<u>2016 Results</u> Nationally	<u>2016 Results</u> Gorsemoor	<u>2017 Results</u> Gorsemoor
	At the expected	At the expected	At the expected
Reading	74%	60%	78%
Writing	66%	28%	72%
Mathematics	73%	52%	81%
Combined	60%	28%	67%
