

Gorsemoor Primary School

Sports Premium Action Plan (2017-18)

Sarah Price - Physical Education and Sports Funding Coordinator

Sports Premium Action Plan Objective

To ensure ALL pupils leaving Gorsemoor are physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport.

Baseline Financial Summary

Total number of pupils on roll	£	598
Total money rolled over from last year	£	5,126
Total Money to be received May 2017 (estimated)	£	4,200
Total money to be received October 2017 (estimated)	£	5,900
Total to spend	£	13,586
Total Money Spent (on-going)	£	1,640

Project Summary

Item/project	Planned Cost	Actual Cost
PE conference at Yarnfield (Friday 16th June) and appropriate supply cover	£ 544.00	£ 544.00
Football kits for all teams and clubs	£ 400.00	£ 437.00
Football Equipment	£ 114.00	£ 114.00
Football goals (8ft x 6ft & 6ft x 4ft)	£ 544.62	£ 544.62
Leasowes football competition for Year 3,4,5 and 6 boys	£ 15.00	

Objective	Baseline / Evidence	Impact, Sustainability & Outcomes
To ensure Gorsemoor is up to date on new health and safety regulations, active learning techniques and obesity strategies	Gorsemoor has a full set of health and safety policies. Various learning techniques already in use and anti-obesity initiatives underway (e.g. Run for your life)	Improving the subject knowledge of 2 x teachers so they can pass on their knowledge to other teachers in the school and ensure a quality education for all children.
To ensure children are proud to represent their school and to make them feel part of the team	There are established clubs, teams and tournaments in existence with little or no access to appropriate kits	Increased participation in football activities. Kits should not need replacing for a number of years.
To ensure children have equipment required to participate in fixtures outside of school.	Existing footballs in school are worn and need replacing. No designated first aid kit for sports and PE.	Increased participation through having correct equipment available to participate in fixtures.
Appropriate goals for both competition and training to enable matches and clubs to take place	No goals are owned by the school. In the past Gorsemoor has borrowed equipment where possible, but this is not sustainable.	Increased number of fixtures possible and a decrease in cancelled activities. Goals should not need replacing for a number of years.
To give children the opportunity to represent their school in football fixtures.	Existing interest in representing Gorsemoor in sports competitions for all age groups	Opportunity for children to take part in competitions and to ensure interest in football (and having an active lifestyle) is maintained. Improved links with local schools and organisations.

Item/project	Planned Cost	Actual Cost
Membership fee- Staffordshire sports schools association TBC	£ 20.00	
Inspirational Athlete day	Free of charge	
Sports Week	£ 500.00	
Staff CPD - iPads in PE	£ 1,500.00	
CPD for lunchtime supervisors- inspiring activity in the playground delivered by Active Sports	TBC	
Staff PE Kit	TBC	
Gorsemoor Olympics	TBC	
Total	£ 3,637.62	£ 1,639.62

Objective	Baseline / Evidence	Impact, Sustainability & Outcomes
To give children the opportunity to represent their school in football fixtures.	Existing interest in representing Gorsemoor in sports competitions for all age groups	Opportunity for children to take part in competitions and to ensure interest in football (and having an active lifestyle) is maintained. Improved links with local schools and organisations.
To give the children the opportunity to engage with a professional sports person	Existing interest in sports and healthy living and relevance to national curriculum	An inspiring event for all children, which will have lasting effects on interest in sport and healthy living
To inspire and motivate more children to get involved in sport and games.	Existing interest in sports and healthy living and relevance to national curriculum	Increased interest and participation of children in sports and healthy living activities
To advise teachers on how best to use theipads to record performance and on how to use them to enhance the quality of PE lessons	Survey into teacher confidence in physical education showed staff would like more ideas and guidance on how to effectively teach PE	There will be a greater knowledge amongst teachers on how to use technology to support child development, specifically around physical education
To improve lunchtime activities and supervision of children away from the classroom	Surveys have been carried out on what the children would like to do during break times	Children would be able to play structured games led by the lunchtime supervisors. This would encourage positive play and hopefully reduce boredom and behavioural issues.
To allow the children to see that all teachers take PE seriously and are proud to deliver it for our community	No PE kit for staff exists. Survey to be carried out on staff and children to ensure the right kit is purchased.	A more professional appearance for staff and a greater respect for the subject
To enable the our school to compete in a multi-event games and to inspire them to want to carry on competing in their future years.	Ask the children on how they would feel about the Olympics coming to our school and competing against a local school.	The Gorsemoor Olympics could run for years to come when all equipment is in situ.
