The Department for Education (DfE) are launching a new service, which will provide schools and other existing user groups with detailed performance analysis to support local school improvement as a replacement to RAISEonline. We hope to have this ready in late April/early May. The name of the new service will be announced as soon as confirmed.

The current RAISEonline service will be available until **Monday 31 July 2017**. This will allow users to familiarise themselves with the new service and provide feedback before the current one is taken offline.
