Use of Headphones in ICT

Dear Parents

All pupils have a need to use headphones in ICT. We use a number of programs that require the pupils to listen to instructions. These include Easimaths, Purplemash, Espresso and Education City. We feel that for hygiene reasons and access to programs with sound, every child needs to bring to school their own set of headphones or earphones.

These can be purchased from many High Street stores including WH Smiths, Tesco and even Poundland. We would advise you not to purchase expensive or bulky headphones.

Smaller in-ear headphones are easier to store in school. They should be named and kept in the classroom in their named wallet for use when required.

We urge that you support us in this matter. We would like all pupils to be equipped as soon as possible.

You may like to know we are spending a considerable amount of money to upgrade the computer systems across school and have recently installed two trolleys of ipads as well as upgrading one computer suite to enable our pupils to get internet access and use online services as easily as possible.

Yours sincerely

Mrs. B.S. Heath
Assistant Head Teacher
E-Learning Manager
